

## NEWS

Josep's Mobiliari improves productivity to their costumers. We will be able to offer new services according to the next new machinery:

**Laser SF-1390:** engrave and cut up to 8mm thick in wood. Nowadays we can also cut the methacrylate

**5-axis numerical control:** allows to work in volume and in 3D files

## NEWS

Nowadays we are in a new factory with more than 4000 m2 and two loading docks.
